

Christian Core Academy Fort Collins

Parents of Christian Core Academy,

Though CCA's policy is that parents need to come to the school to administer any necessary medication to their children during school hours, I understand that CCA is able to keep "rescue" type medications on hand for quick use in the event of an emergency.

It is the parent's responsibility to properly demonstrate the use of this medication to any CCA staff who would need to know, and it is also parents responsibility to assess and make sure these staff members are properly equipped to effectively give this medication when needed, as well as any needed follow-up procedures such as calling 911, etc.

I, _____ (parent), have provided training to _____ (staff members) for my child _____'s medication: _____ and have deemed that they know how, why and when to properly give it to my child, as well as proper storage for this medication.

Self- Carry Statement (For students with inhalers or EpiPens)

(this section only needs to be filled out if a parent determines their child can self-carry their medication)

I, _____ (parent) have decided that my child _____ is capable and responsible enough to store and administer their own medication _____ and I give permission for them to be held responsible of taking care of this privilege on their own. I also understand that this privilege can be revoked at any time if my child is not being responsible with this medication

Student Contract:

I take responsibility of my medication and will only use it when necessary, tell an adult if I am using it, and not share it with other students.
