3 Entrance Testing
Students entering 1st through 8th grade will complete an assessment at the school administration. This assessment will test the academic proficiency, as well as the developmental readiness for the grade they are entering.

4 Parent Interview
When the Admissions office contacts you to schedule the Entrance Testing, they will also schedule the Parent Interview. CCA's model is a family partnership that begins in the interview. Enrollment is dependent on the Parent Interview and is typically communicated at the conclusion of the interview.
